

# Arrocal Reserva de Familia 2019 (Red Wine)

Located in Gumiel del Mercado, in the province of Burgos, our wines are made exclusively from our grapes from soils combined with limestone, sand, clay, and gravel at an altitude of 830m. We have 123 acres of vineyards, the most widespread red variety is “Tinta fina” or “Tempranillo”, with approximately 111 acres. Cabernet Sauvignon has 4 acres, Merlot has 2 acres and “Albillo” (white variety) has 4 acres.

In 2003, the construction of our winery was completed. A space equipped with the latest technology, but above all was designed to respect our treasure: our grapes. All processing work is done by gravity, minimizing the damage to the raw material. The main objective is to follow a sustainable viticulture, a true reflection of quality wines.

## Reviews:

“The Reserva de Familia is the very old vine bottling from Bodegas Arrocal, as these more than seventy year-old vines all hail from the vineyard of Guardaviñas, which is planted at eight hundred-sixty meters of elevation and, of course, farmed organically. These old tempranillo vines produce very low yields and the wine is fermented with native yeasts, undergoes malolactic fermentation in cask and is raised in seventy percent French and thirty percent American oak casks for fully two years before bottling. The wine comes in at 14.5 percent alcohol in 2019, but is seamless and offers up superb depth in its bouquet of sweet dark berries, black plums, cloves, cocoa powder, stony soil tones, cigar smoke and a lovely foundation of cedary oak. On the palate the wine is deep, full-bodied, focused and complex with a superb core of old vine fruit, excellent soil undertow and grip, ripe, buried tannins and impeccable balance on the long and very classy finish. This is still a puppy and deserves more bottle age to blossom fully, but if you splurge for a case, it is certainly not a crime to open a bottle or two in this first blush of youth! Great juice. 2030-2085..” **94 points View from the Cellar;** John Gilman -Issue #103 January/February 2023.
