“Arrocal is among my favorite bodegas in Ribera del Duero, which is in turn among my favorite regions in the world and arguably Spain’s best source for pure but powerful Tempranillo...This Reserva is a deeply satisfying wine of richness and power, but with no rough edges...Very deep color provides an accurate tip-off of what’s to come, and the bouquet is marked more by beautifully ripened fruit than wood, though notes of spice and light toast are very appealing. The fruit profile is certainly ripe and the “feel” is rich, yet there’s also real freshness here...”
