

Paixar A-Serra 2023

D.O. Bierzo
Grapes: 100% Mencía

96+points
WINE ADVOCATE

"...This is a lot more reticent than the Viña de Vaca; it's subtler, serious and terribly elegant and balanced. It has contained ripeness and 13% alcohol, a pH of 3.36 and 5.16 grams of acidity. It's finer-boned, more elegant and precise. The mouthfeel is beautiful, with very fine tannins. The two wines are getting more differentiated, getting their own personality. 12,500 bottles produced. It was bottled in March 2024. 2026 – 2036."

Luis Gutiérrez - July 10, 2025

Imported by Grapes of Spain
